Dear Andrey Kudryavtsev,

Thank you for your interest in the PhysioNet Clinical Databases. We are pleased to say that your application for credentialed access has been approved.

You are now able to access protected databases upon agreeing to the terms of usage and completing any required training. For example, you can access A Brazilian Multilabel Ophthalmological Dataset (BRSET) by following the steps below:

- Go to the project page at <https://physionet.org/content/brazilian-ophthalmological/>
- Find the "Files" section in the project description
- Follow instructions to complete required training, if necessary.
- Click "Sign the Data Use Agreement" to agree to the terms of usage for the dataset

To check the status of your training or to submit training documents for review, please visit <https://physionet.org/settings/training/>.

Regards, The PhysioNet Team, MIT Laboratory for Computational Physiology Institute for Medical Engineering and Science, MIT, E25-505  
77 Massachusetts Ave, Cambridge, MA 02139
